PROFESSIONAL SUMMARY

Fresh Computer Science and Engineering graduate with hands-on experience in full-stack web development, software test automation, and AI-assisted engineering workflows. Built and shipped production-style projects spanning React/Node.js applications and Selenium-based QA automation. Seeking an entry-level Software Engineer / QA Automation Engineer role to apply strong problem-solving and system-design fundamentals.

EDUCATION

BSc in Computer Science & Engineering <i>Green University of Bangladesh, Dhaka, Bangladesh</i>	02/2022 – 09/2026 Dhaka, Bangladesh
Higher Secondary School Certificate <i>Govt. Alimuddin College, Hatibandha, Lalmonirhat GPA: 4.83</i>	04/2018 – 04/2020 Hatibandha, Lalmonirhat
Secondary School Certificate <i>Govt. SS High School, Hatibandha, Lalmonirhat GPA: 4.44</i>	01/2016 – 02/2018 Hatibandha, Lalmonirhat

PROFESSIONAL EXPERIENCE

SQA Engineer Intern – QA Harbor • Performed manual and functional testing, wrote test cases, and reported bugs following SDLC/STLC practices. • Conducted regression testing and basic API testing to support release quality.	03/2026 – 05/2026 Mohakhali, Dhaka, Bangladesh
Laravel Developer Intern – DeshIT BD • Contributed to backend feature development using the Laravel framework and MySQL. • Worked within an existing codebase to implement and debug application features.	10/2025 – 11/2025 Remote

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Python, JavaScript, OOP
- **Frontend:** HTML, CSS, Tailwind CSS, React, React 19, Vite
- **Backend:** Node.js, Express.js, PHP, Laravel, REST APIs, JWT Authentication
- **Databases:** MySQL, MongoDB
- **Software Testing & QA:** Selenium WebDriver, Page Object Model (POM), Playwright, Pytest, Postman, Manual Testing, Regression & Functional Testing, SDLC & STLC
- **AI & Machine Learning:** AI Prompt Engineering, Supervised & Unsupervised Learning, Model Evaluation
- **Tools:** Git & GitHub, VS Code, Figma, Draw.io, Jupyter Notebook

PROJECTS

MealMate, Full-Stack Meal, Market & Finance ERP

08/2026 – Present

Personal Project | <https://github.com/bidhan31/mealmate> 

- Designed and built a large-scale full-stack ERP system for managing meals, market expenses, and finances for shared bachelor houses in Bangladesh.
- Developed a 16-module backend using Node.js, Express, and MongoDB, including JWT authentication, PDF/Excel report generation, and automated email notifications.
- Built a responsive React 19 frontend with Vite and Tailwind CSS, implementing a dark purple glassmorphism UI and full Bangladeshi Taka (৳) currency support.

CVJachai, Advanced CV Screening & HR Intelligence

01/2026 – 06/2026

Team Project | github.com/bidhan31/CVJachai 

- Collaborated with a team to build a web platform that screens resumes using a trained machine learning classifier, with automatic fallback to the Groq LLM API when model artifacts are unavailable.
- Stack: Django (Python) REST backend, React + Vite frontend, with a separate model-training module for the resume classifier.

JobSeekerBD, Job Portal

05/2025 – 05/2025

Personal Project | github.com/bidhan31/JobSeeker 

- Built a job portal enabling job seekers to browse and filter listings and apply directly, while employers post openings and manage applications.
- Implemented with HTML, CSS, JavaScript, and PHP, backed by a MySQL database.

CERTIFICATIONS

- Job Ready: Employability Skills – Wadhwani Foundation
- Web Development Course – Programming Hero
- AgentX (Prompt Engineering) – NetCom Learning

SOFT SKILLS

- Problem-solving and analytical thinking
- communication and teamwork
- time management
- adaptability

LANGUAGES

- Bengali (Native)
- English (Professional working proficiency)
